FOR IMMEDIATE RELEASE

Specialized bone, joint and muscle care now available in Washington

Dr. Brent A. Overton will hold clinics beginning Oct. 24, 2012

WASHINGTON, Iowa (Oct. 16, 2012) – [Dr. Brent A. Overton](#) of [Steindler Orthopedic Clinic](#) will hold orthopedic clinics in Washington every other Wednesday, beginning Oct. 24, 2012. The Steindler Orthopedic Clinic – Washington, 420 E. Polk St., will be available from 8 a.m. to 5 p.m. Patients who would like to schedule an appointment with Dr. Overton are encouraged to call Steindler Orthopedic Clinic at (319) 338-3606.

As a specialist in total joint replacements of the hip and knee, as well as general orthopedic surgery including microsurgery of the spine, Dr. Overton will be able to diagnose and treat any injury or condition of the bone, joint or muscle, as well as provide x-ray services.

“My goal is to help patients recover quickly and return to their active lifestyles,” Dr. Overton says. “I look forward to providing the same compassionate, individualized care at our newest clinic in Washington that patients have come to expect from Steindler Orthopedic Clinic’s other three locations.”

A native of Traer, Iowa, Dr. Overton graduated from the University of Iowa Carver College of Medicine in 1996. He also completed advanced training as a resident at Akron General Medical Center in Akron, Ohio.

For more information regarding Dr. Overton or Steindler Orthopedic Clinic – Washington, please contact Steindler Orthopedic Clinic at (319) 338-3606.

The 16 highly trained physicians of Steindler Orthopedic Clinic have provided exceptional bone, joint and muscle care to patients throughout southeastern Iowa for more than 60 years. Through the practice’s primary location in Iowa City and three outreach clinics in Muscatine, Sigourney and Washington, the physicians and staff of Steindler Orthopedic Clinic are dedicated to providing specialized care in ankle, elbow, foot, hand, hip, knee, shoulder, spine and wrist to each and every patient. This care also includes joint replacement and revision, osteoporosis management, pain management, physical medicine and rehabilitation, rheumatology and sports medicine.
